2 June 2013

Dear Sirs

A419 WATERMEAD NOISE BARRIER

Thank you for your letter dated 11 June 2013 about Swindon Borough Councils proposal to install a noise barrier between the A419 trunk road and Watermead addressed to Mike Wilson. I am replying to you as acting Regional Director.

We are supportive of this kind of initiative and are keen to work with local authorities and private enterprise to bring forward such proposals where they can be delivered without impacting the safe operation of the network.

We are very interested to see how this project develops as it appears to be an excellent example of local people thinking and working creatively with strategic organisations to achieve mutually beneficial outcomes

Yours faithfully

Andrew Page-Dove
NDD South West Regional Director
